Please note that these are the PUBLISHED book lists, not the actual book lists. These are published so that you can see the books that are on the lists that you want to SELL to me. The actual book list is huge and contains details of EVERY book, including copy books, that the student will be given.

Please be aware that this is a new system that we are implementing and therefore there may be a number of small details that need to be ironed out. One of them that I have already been made aware of is the fact that many arabic HGC textbooks are highlighted and underlined under the instruction of the teacher. I have previously stated that I will not purchase MARKED or dirty books. Having realised that HGC books are underlined I have agreed to purchase all HGC books that are TIDY even if they are underlined.

Should you have any questions regarding this please do not hesitate to send me an email : [steve@lesbg.com](mailto:steve@lesbg.com).
