Mid Year Exams : February 2011

Please place on this sheet the contents of your course that you will be examining in your Mid Year Exam. Details are expected. Chapter numbers, section headings and the like. Please type using this template and then email the template to me using the following syntax in the Subject header of the email : TaughtSubject : Class. Thus if I were sending details of Maths in 7A the subject of the email would be : "Maths : 7A". Every Class/Subject combination should have a separate email. Thus Bassem will send me about 19 emails!

Teacher : Omaima	Subject : Biology	Class
	10	

Biology, Class 10 A,B,C

Chapter 1:	Autotrophy and photosynthesis	page15 - page 31
Chapter 2:	Plant supply with raw materials	page 32 - page 45
Chapter 3:	The use of photosynthesis	page 46 - page 59
Chapter 6:	Production of high quality plants	page 100 - page 108
Chapter 7:	Influence of environmental factors on the production of high quality plants	page 118 - page 131

Dear student the best way to study biology is to make sure you understood all concepts and you memorized all technical terms. You have to reanalyze all activities and resolve the exercises. Review the quizzes and tests.

Good luck.
