1. Name the appropriate method for each of the following researches, stating the basic characteristic for each method and then justify your answer (4 pts)

1.1 A study showing the number of couples marrying someone from a different religion.

1.2 A study was done where children were given toys that were broken the moment the child touched it, and then the observer continued to stare at the child for a full minute, recording the children's reaction. Five years later, it was found that children who expressed more guilt developed less behavioral problems.

1.3 Studies showing how the French colonization for Lebanon affected our culture, the academic system etc

1.4 The administration of the school decides to assess the relationship between the teachers and the students

2. Name the social concept for the following statements (1pt)

   Values that all modern societies had agreed upon their importance and the necessity to adopt them

3. Categorize the following into traditional and modern features in the Lebanese society.

   The dominance of primitive agricultural production in rural areas – The prosperity of trade and service sector in the city – Independence and individuality of the youth – Women's marriage requires parent's consent (1.5pt)

4. Explain the relation between the descriptive and the explanatory survey: (1pts)

5. Explain the relation between : (2pts)

5.1 Values coming abroad and social conflict

5.2 Socialism and social contract

6. Justify with an idea: Values of a traditional family is different from values of modern family (1pt)

7. Put the following groups into 2 categories and justify your answer: (2pts)

   Psychological unity- coherence of samples – values are sacred – values change with development – values are the result of the human mind – social integrity

8. Extract the correct answer from the following set: (1pt)

   Values are transmitted to the society from abroad through : traditional school – modern means of communication – traditional family – the rural neighborhood – the conservative forces in authority

9. In recent years, the Lebanese have witnessed an unprecedented living crises. You are asked to participate in a study about this subject and gather field information, .addressing : A sample of citizens – One of the social researchers

9.1 Name the sociological research technique that corresponds to each of the two above mentioned parties and justify your answer (2 pts)

9.2 Formulate a question with three alternatives addressed to a sample of Lebanese about organizing spending within the family (2pts)

9.3 Formulate a question addressed to a social researcher about the impact of this living crisis on the society. (1pt)

9.4 Mention two steps or sociological research you implemented before the step of data collection. (1.5 pt)

1.1 Statistical method since it is the study by using number or mathematical figures.

1.2 Experimental method since it is a study by doing an experiment on a group of children to see their reaction

1.3 Historical method since it is the study by looking at the history or past of events

1.4 Sociometry since it emphasizes the relation between teachers and students

2. comprehensive or international human values

3. traditional: The dominance of primitive agricultural production in rural areas – Women's marriage requires parent's consent

   Modern: The prosperity of trade and service sector in the city – Independence and individuality of the youth

4. Descriptive survey is when the researcher chooses a sample and collects data by using one of the techniques such as the observation, interview or survey and then he continues with describing what he achieved in the descriptive survey

5.1 Values coming from abroad might contradict the local values of our society and therefore could lead to social conflict

5.2 Social contract is when the individual sacrifices part of his right for the benefit of the whole society and that leads to the total will and equality. Socialism is based on social contract

6. Traditional family is still attached to inherited norms and habits and values where the child is raised to obey while the modern family trains a child on individual initiative and creativity and respecting opinion of others.

7. group 1 : psychological unity – coherence of samples- social integrity

   group 2 : values are sacred – values change with development – values are the result of human mind

   group 1 : functions of values

   group 2 : characteristics of values

8. modern means of communication

9.1 A sample of citizens : survey justification : because it is the best technique to collect quantitative data from a big number of people and in this case a sample of citizens

One of social researchers : interview and the justification is that it is the best technique to collect quality information from one of the social researchers

9.2 Example

What are some priorities that you were forced to sacrifice in these critical circumstances?

- Visting the doctor
- Some kinds of food
- Shifting from private to public school

OR

What are you spending more on in this crises?

- Food
- Medicine
- Education

OR

Who participates in spending in your family?

- The father
- The mother
- My siblings

9.3 How much do you think that this crises will increase or affect deviation and crimes in the Lebanese society?

What are the risks that threaten the Lebanese unity as a result of this crises?

9.4 define the problem / putting a hypothesis / determining the techniques used for data collection
